

Smiley's Clinic

FAMILY MEDICINE

NEW LOCATION - OPEN FEBRUARY 13, 2007

2020 East 28th Street
Minneapolis, MN 55407

A HEALTHY DEVELOPMENT

We are pleased to announce that our new clinic location will be opening on February 13, 2007. Starting on February 13, all appointments will be at the 28th street location. Our new facilities will allow us to better serve you with more spacious exam rooms, a more efficient clinic layout, and improved parking.

Additionally, we are excited to now offer on-site pharmacy services, bone density scans (DEXA scans), digital X-rays, and select chronic disease care group visits. Through our electronic medical record system, scans taken within Smiley's Clinic can now be viewed by University of Minnesota Physicians specialists in the outpatient clinics as well as at the University of Minnesota Medical Center, Fairview and the University of Minnesota Children's Hospital, Fairview. It is also important to note that the same excellent team of doctors from Smiley's Clinic will see patients at the new location.

We are enthusiastic about this healthy development for the community, keeping health care accessible for Minneapolis neighborhoods.
